Office Action Summary

Art Unit: 1711

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 11-21 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over WO patent no. 94/25514, of record.

The patent discloses making rigid polyurethanes using a mixture of blowing agents comprising cyclopentane and either propane, butane, isobutane, cyclopentane and cyclopropane. Note page 3 in the aforesaid regard and page 6 with regard to the broad proportions employed by patentees of the blowing agent and co-blowing agent which read on the claimed proportions.

It would have been obvious to one skilled in the art to make the claimed foamed rigid polyurethane by the method taught by the WO patent of record. .

Any inquiry concerning this communication should be directed to Morton Foelak at telephone number (703) 308-2442.
